PETITION TO CORRECT FILING DATE FROM  
EXPRESS MAIL FILING PURSUANT TO 37 CFR §1.10(c)

RECEIVED

Assistant Commissioner for Patents  
Washington, D.C. 20231

APR 29 2002

OFFICE OF PETITIONS

Sir:

The subject application was filed by Express Mail on February 21, 2002 and received a filing date of February 22, 2002, as is shown by the Filing Receipt received on April 2, 2002, a copy of which is enclosed as Exhibit I. It is respectfully requested that the filing date be corrected to February 21, 2002, and that a Corrected Filing Receipt be issued. Check No. 073844 in the amount of \$130.00 for the required fee for this Petition is enclosed herewith.

More specifically, the subject application was filed with Express Mailing label EL854692730US, "Express Mail Post Office to Addressee", as shown in enclosed Exhibit II, a copy of the first page of the subject application, and Exhibit III, a copy of the signed Certificate of Mailing by "Express Mail" this application, both true copies being from counsel's file.

DOB: 230920 Name/Number: 10082014  
FC: 704 \$130.00 CR

Enclosed Exhibit III identifies James C. Cato as the person who actually filed the application by mailing it at a U.S. Post Office. Enclosed Exhibit IV is a declaration of that Fred C. Cato, who identifies himself as an employee of Archer Management Services, a company that contracts for mail room services at the undersigned counsel's law firm. Mr. Cato states that he was given the package bearing Express Mail label No. EL854692730US that contained the subject application and carried it to the U.S. Post Office Main Chicago Office located at Harrison and Canal Streets in Chicago.

He states that he arrived at that Post Office at about 7:15 PM, and noted a long line in the Express Mail lane. Mr. Cato states that he was informed by a U. S. postal employee that they were having computer problems dealing with the type of package he had, and that such packages had to be dealt with by hand. Mr. Cato gave the package to the postal worker at the head of the processing line at a time no later than 8:00 PM, but he was not given a filled out mailing label by the postal employee who was supposed to give it to him. As a consequence, no copy of the mailing label accompanies this Petition.

Also enclosed herewith as Exhibit V is a Declaration by Mr. James Eppolito, an employee of the U.S. Post Office Main Chicago Office, who works in the Express Mail Department. Mr. Eppolito's Declaration corroborates the computer difficulties and long processing line at that Post Office at the time on February 21, 2002 noted by Mr. Cato. Mr. Eppolito also states his understanding of the events by which U. S. postal employees instructed persons such as Mr. Cato to leave their packages and ensured them of processing that evening.

Mr. Eppolito further states that Mr. Cato left the Express Mail labeled package with label No. EL854692730US at the

Post Office on February 21, 2002 at a time between about 7:15 and 7:30 PM. Mr. Eppolito thus corroborates the possession and control of the application by the U.S. Postal service on February 21, 2002.

Thus, an employee of the U. S. Postal Service has acknowledged receipt of the package bearing the subject application on February 21, 2002, the date to which the filing date is requested to be changed. In view of governmental possession and control of the application is agreed by one branch of the U. S. government to have been exercised on February 21, 2002, it is submitted that the U.S. Patent and Trademark Office concur and correct the filing date. A marked-up copy of the Filing Receipt containing the desired change in date is enclosed.

No further fee or petition is believed to be necessary. However, should any further fee be needed, please charge our Deposit Account No. 23-0920, and deem this paper to be the required petition.

Respectfully submitted,

By   
Edward P. Gamson, Reg. No. 29,381

Date Mailed: 03/29/2002

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

DECLARATION OF JAMES C. CATO

I, James C. Cato, declare as follows:

1. I am an employee of Archer Management Services, a contract service for mailroom activities at the law firm of Welsh & Katz, Ltd.

2. On Thursday, February 21, 2002, as part of my job duties, I was given an Express Mail package, bearing Express Mail label number EL85 4692 730US to hand-deliver to the United States Post Office Main Chicago Office ("Post Office") on Harrison and Canal Streets. This Express Mail package was destined for the United States Patent and Trademark Office in Arlington, VA.

3. When I arrived at the Post Office, at approximately 7:15 p.m. on February 21, 2002, I noticed that there was a long line for processing metered mail such as the Express Mail package I was delivering. I was informed by a postal worker in the Post Office that the reason for the long line was that there were problems with the computers. Therefore, the metered mail such as the Express Mail package I was delivering had to be processed by hand.

4. I provided the Express Mail package, bearing the Express Mail label number EL85 4692 730US, to the postal worker at the Post Office who was at the head of the line for processing metered mail such as this Express Mail package, at a time no later than 8:00 p.m. on Thursday, February 21, 2002. I did not receive a receipt when I handed over the Express Mail package.

I, James C. Cato, declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

IMMUNOGENIC HBc CHIMER PARTICLES STABILIZED  
WITH AN N-TERMINAL CYSTEINE

CROSS-REFERENCE TO RELATED APPLICATION

This a continuation-in-part of application  
Serial No. 09/930,915, filed August 15, 2001, whose  
disclosures are incorporated herein by reference.

TECHNICAL FIELD

The present invention relates to the  
intersection of the fields of immunology and protein  
engineering, and particularly to a chimeric hepatitis  
B virus (HBV) nucleocapsid protein that is engineered  
for both enhanced stability of self-assembled  
particles via an N-terminal cysteine residue and the  
display of an immunogenic epitope.

BACKGROUND OF THE INVENTION

The family hepadnaviridae are enveloped  
DNA-containing animal viruses that can cause  
hepatitis B in humans (HBV). The hepadnavirus family  
includes hepatitis B viruses of other mammals, e.g.,  
woodchuck (WHV), and ground squirrel (GSHV), and  
avian viruses found in ducks (DHV) and herons (HeHV).  
Hepatitis B virus (HBV) used herein refers to a  
member of the family hepadnaviridae that infects  
mammals, as compared to a virus that infects an avian  
host, unless the discussion refers to a specific  
example of a non-mammalian virus.

The nucleocapsid or core of the mammalian  
hepatitis B virus (HBV or hepadnavirus) contains a  
sequence of 183 or 185 amino acid residues, depending

EXHIBIT V

### DECLARATION OF JAMES EPPOLITO

I, James Eppolito, declare as follows:

1. I am an employee of the United States Post Office Main Chicago Office ("Post Office") on Harrison and Canal Streets, Chicago, IL and work in the Express Mail Department.
2. On Thursday, February 21, 2002, at approximately 7:15 p.m. – 7:30 p.m., I was aware that there was a very long line for processing Express Mail packages. It is my understanding that a clerk advised those with corporate accounts to leave their packages and ensured the individuals that the packages would be processed that evening.
3. This Declaration is to verify that the explanation in the Declaration of James C. Cato (attached) is correct. Mr. Cato did drop off an Express Mail package, bearing Express mail label number EL85 4692 730US, at the Post Office on Thursday, February 21, 2002, at approximately 7:15 p.m. – 7:30 p.m.

I, James Eppolito, declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.
